12 seater bus

Takes dozens of people everywhere

People travel cheaper by t

Personnel

All kinds of people travel cheaper by the dozen in a Devon 12 seater bus — office staff and employees, members of clubs, associations and societies. And there's lots of spare room for their luggage and equipment.

Each bus saves using up to four cars, four drivers and four lots of petrol. Devon buses are so easy to drive and park, lady drivers love them.

Site workers

The perfect vehicle for getting workers to and around building sites. Starts easily on cold winter mornings saving time and temper.

School children

A school that has a Devon bus is a very lucky school indeed. It can take sports teams to away games without having to rely on others. It can take children on outings or educational visits. It adds a whole new dimension to the syllabus and helps the children really enjoy learning.

the dozen

Hotel guests

A hotel bus to take guests to and from stations, airports and the town centre can really build you a reputation fast. And the Devon is big enough not to have to make guests wait for public transport or taxis. You can take them by the dozen.

Crews

The Devon bus is a reliable method of getting air crews and light equipment to a plane. Use it to move staff to any part of the airfield and for odd jobs, airport hotel transfers and general running about.

Hire bus

Devon buses mean trouble-free hiring at a worthwhile profit. There's an all year round demand for them.

Teams

A Devon bus shows the success of your team and encourages support. It also helps the team arrive fresh and raring to go!

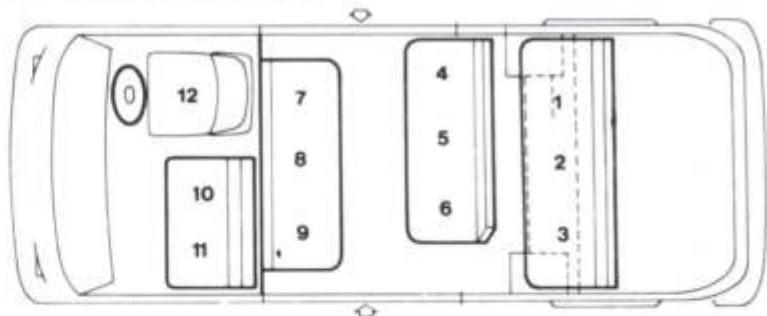

Welfare

Hospital staff and patients, nursing homes, welfare associations and charities all find the Devon 12 seater bus the ideal vehicle for taking people in comfort.
