The holiday makers

You know that you can rely on the VW to take you across the roughest terrain in complete comfort and safety. You can be equally certain that the journey's end will be just as comfortable with a Devon Motor Caravan.

Devon build their own excellent craftsmanship into the already well known quality of both VW's Micro Bus and Kombi. Their conversions, the Sunlander and the Moonraker, both have the very best conversion work that money can buy, the Moonraker is just a little more expensive because it has a few extras that the Sunlander hasn't.

See the brochure for full details.
