

DEVON VOLKSWAGEN 12-16 SEATER BUSES

Devon

Devon Volkswagen, two of the best known names in buses. Economy, durability, reliability and passenger comfort is the basis on which Devon VW Buses have built such an enviable reputation. The new Devon VW Buses are based on the successful LT range. Built with the driver and passengers in mind the LT's chassis, suspension and safety cell construction meet the toughest legislation worldwide. Powered by Volkswagen's great new 2.4 litre 6 cylinder in-line engine, the petrol version delivers a formidable 20% more power and 7% more torque. The 2.4 litre diesel engine too responds superbly under loaded conditions.

With such an outstanding record of reliability it is hardly surprising that Devon VW Buses come with a 12 months unlimited warranty. For fast, efficient service Devon VW Buses are backed by a countrywide network of dealers.

12 SEATER PSV

15 SEATER

Especially designed to meet the growing need for economic small buses in town and country. This 12 seat PSV offers durable design with built-in comfort making it ideal for bus, taxi and coach travel.
