

# Simple algebra...

**Style + Comfort =  
Perstorp + Devon Motor Caravans**

...which all  
adds up to  
**QUALITY –**

***And this is the  
inside story!***

*It is not surprising that the makers of  
"Devon" Motor Caravans have chosen  
SWEDISH PERSTORP plastic laminates  
exclusively for the working tops and cooker  
housings, because the accent is on quality.  
Only the best materials are used in these  
leading motor caravans, and there is  
nothing better than SWEDISH PERSTORP.  
Durable, heat resistant, easy to clean and  
still original in spite of imitators.*
